Hello everyone, it is nice to e-meet you!

We are SlidesLive, the recording company partnered with ICML to record your talk. We are ready to collect and edit your recording about

**Position: The Term "Machine Unlearning" Is Overused in LLMs!**

### Recording information:

- You will record your video using SlidesLive Recorder, which syncs your talk with your slides.
- It is your responsibility to ensure video and audio quality on your final recording, you will have a chance to review immediately after recording and can re-record or edit if needed.
- If video quality is poor, we will use just audio.
- [Follow these tips](#) for the best possible results.
- Don't use your mouse as a pointer. Create separate slides to highlight parts of your presentation.
- If you have multiple authors, they can all use the same recording link from below, just enter the total number of speakers when registering as a new speaker.

### Sharing and submitting:

- You can create a share link to let other authors watch what you have recorded.
- Once you're happy with your recording, remember to "Submit as FINAL version" - this version will be edited and used for the event. If the final version is not marked, the last version is edited.
- If you submit your talk early, we will have enough time to work out possible quality issues.
- Please do NOT postpone your upload until the last minute.
- After submitting a FINAL version, recording is not possible anymore.

### Your unique link to record your presentation:

[https://recorder-v3.slideslive.com/?token=ICML2026\\_\\_67198\\_\\_sangyeon-yoon-yeachan-jun-al](https://recorder-v3.slideslive.com/?token=ICML2026__67198__sangyeon-yoon-yeachan-jun-al)

- Deadline for the recording is **June 1st AOE**.
- Submissions past the deadline are not possible
- Maximum talk length is 5 minutes

If you have any questions, please let us know!

Sincerely,

**SlidesLive**
